CITY of BEDFORD

2000 FOREST RIDGE DRIVE, BEDFORD, TEXAS 76021-1895

February 9, 2015

Citizens of Bedford, Honorable Mayor, Members of the City Council and City Manager:

The Administrative Services Department is pleased to submit the Comprehensive Annual Financial Report for the City of Bedford, Texas (City), for the fiscal year ended September 30, 2014. This report was prepared through the cooperative effort of the Administrative Services Department and the City's independent auditor. It is published to provide the City Council, staff, citizens, bondholders and other interested parties with detailed information concerning the financial condition and activities of the City government.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation rests with the City. We believe the data, as presented, is accurate in all material aspects. It is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds and all disclosures necessary have been included to enable the reader to gain the maximum understanding of the City's financial affairs.

The Comprehensive Annual Financial Report is presented in three sections: introductory, financial and statistical. The introductory section includes this transmittal letter, organizational chart and a list of principal officials. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements and combining and individual fund statements and schedules. The statistical section includes a variety of financial and demographic information presented on a multiyear basis that is relevant to a financial statement reader. The financial section is prepared in accordance with generally accepted accounting principles for governments as prescribed by the Governmental Accounting Standards Board (GASB).

CITY PROFILE

The City of Bedford is a predominately residential community located in Tarrant County, near several major transportation links between Dallas and Fort Worth. It is part of the "Metroplex" of North Central Texas, which includes the cities of Dallas and Fort Worth. The City of Bedford is bordered on the east and south by the City of Euless, on the west by the City of Hurst and on the north by the City of Colleyville. Bedford lies approximately five miles from the Dallas/Fort Worth International Airport, 12 miles from downtown Fort Worth and 20 miles from downtown Dallas. There are three State Highways (183, 121, 157) and two Interstate Highways (35, 30) serving the City with the nearest Interstate located six miles away.

The City was incorporated in 1953 under the general laws of the state of Texas and the voters approved the current charter in 1966. The City is a home rule city and operates under the Council/Manager form of government. The City Council is composed of a mayor and six council members elected at large every three years.

THE REPORTING ENTITY AND ITS SERVICES

Generally accepted accounting principles require that general-purpose financial statements present the City (the primary government) and its component units. Component units are organizations for which the City is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete.

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. Based on this criterion, the following blended component unit is included. The City of Bedford Street Improvement Economic Development Corporation (EDC) is governed by a seven-member board appointed by the City Council. Although it is legally separate from the City, the EDC is reported as a Special Revenue Fund as if it were part of the primary government because its sole purpose is to operate, maintain and finance the costs of the City's street improvements using sales taxes collected under Section 4B of the Development Corporation Act of 1979.

Services provided by the City under the general governmental functions include police and fire protection, emergency medical services, planning and zoning, code enforcement and inspections, street maintenance, parks, recreation, library and senior citizen services. A Special Revenue Fund is used to account for revenues derived from hotel/motel taxes, with proceeds used to promote tourism. Water and sewer services are provided under an enterprise fund concept, with user charges set by the City Council to ensure adequate coverage of operating expenses and payments on outstanding debt. Drainage maintenance services are also provided under the enterprise fund concept, implemented in 1991 in accordance with amendments to Title 13 of the Texas Local Government Code.

The water supply for the City of Bedford is provided by the Trinity River Authority (TRA), which provides treated water to Bedford, Euless, Colleyville, Grapevine and North Richland Hills pursuant to separate, but similar contracts dated January 21, 1972 and April 25, 1979. In October 1973 the Trinity River Authority (Central Regional Wastewater System) entered into a 50-year contract with numerous cities in the metroplex, including the City of Bedford for construction of a wastewater treatment plant to service all contracting parties.

The original 50-year duration of the contract is automatically extended through the latest maturity of any TRA outstanding debt issues.

ECONOMIC OUTLOOK AND FINANCIAL CONDITION

The information presented in the financial statements should be considered from the broad perspective of the specific environment within which the City operates.

In recent years, the City of Bedford, located in the heart of the Dallas/Fort Worth Metropolitan area (DFW), has experienced a significant slowdown in population growth. The 2010 census reflects a population of 46,979, which is approximately a 0.4% decrease from the census results of 2000. However, current population estimates are projected to be 48,721 or 3.7% above the census results.

Multiple light manufacturing firms are located in Bedford, as well as a variety of commercial establishments, restaurants, health care facilities, retail stores, shops and food stores. Several of the retail shopping centers in the City are undergoing renovation and expansion. Undeveloped property accounts for approximately 3.0% of the total area in the City.

The City is not financially dependent upon any one industry, or type of industry. The City recognizes the value of commercial development to its economic base and continues to encourage commercial growth that will be beneficial to the community.

The local economy, like the North Texas Region, has been impacted by the economic challenges experienced by the nation as a whole. However, the City of Bedford has experienced an upswing in its sales tax revenue from the previous year by 3.7% or \$356,000.

As a policy, the City Council has set certain economic goals that are intended to attract high quality, visually appealing businesses, as well as revitalize and invest in areas that have seen some deterioration of economic activity. By emphasizing the need to be more business friendly, the goals of the City Council seek to provide the general direction for future land use plans and decisions for the City.

Current longer range financial planning primarily revolves around several major water/sewer system infrastructure projects as well as significant improvements to our drainage system. In addition, as the City is approximately 97% built out, significant planning initiatives are being considered to provide for re-development of certain aging corridors within the City.

The state of Texas is currently widening State Highway 183 (Airport Freeway), which runs East/West through the center of the City. During the construction period, the City was highly successful in retaining existing businesses, and recruiting new businesses to the highway corridor. Although the major highway reconstruction project had the potential to significantly impact business activity along the highway corridor, the City saw minimal negative impact. Moving forward, the highway expansion project is now complete and the City has realized new development opportunities as a result of the expansion. The City is working strategically with property owners to ensure that these opportunities develop to the highest standard possible.

To the extent that operations result in surplus funds, we will continue to fund various capital needs of a one-time nature from the surplus rather than issuing unnecessary debt.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The City's accounting records for general governmental operations are maintained on a modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's proprietary funds are maintained on the accrual basis.

In developing and maintaining the City's accounting system, consideration is given to the adequacy of the internal control structure. The internal control structure is designed to provide reasonable but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of the control should not exceed the benefits likely to be derived and the evaluation of cost and benefits requires estimates and judgments by management.

We believe the City's internal control structure is adequate to safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The budgetary process begins each year with the preparation of revenue estimates by the City's Administrative Services Department staff and expenditure estimates by each City department. Estimates are reviewed by the City Manager, and evaluated within the total financial framework. Budget proposals are recommended by the City Manager and reviewed extensively by the City Council, a process that includes a public hearing. After the conclusion of the public hearing, the City Council may make changes as deemed appropriate. The budget as amended is then adopted by ordinance, which also adopts the tax rate.

In addition, the annual budget also contains a capital improvement program which may be revised and extended each year to indicate capital improvements pending or in process of construction or acquisition. The capital program includes a list of all capital improvements that are planned during the upcoming five fiscal years, cost estimates, time schedules and methods of financing for each improvement.

GENERAL GOVERNMENTAL FUNCTIONS

Property Taxes

All eligible property within the City is subject to assessment, levy, and collection of a continuing, direct ad valorem tax sufficient to provide for the payment of principal and interest on outstanding bonds within the limits prescribed by law, and the payment of operation and maintenance costs as approved by the City Council. Under state law, the City is limited to a maximum tax rate of \$2.50 per \$100 assessed valuation.

In addition, the City's home rule charter limits the tax rate to a maximum of \$1.50 per \$100 assessed valuation.

The appraisal of property within the City is the responsibility of the Tarrant County Appraisal District (TAD). The City of Bedford and other taxing jurisdictions in Tarrant County provide a pro rata share of the budgeted expenditures incurred by TAD based upon individual levy. The City contracts with the Tarrant County Tax Office for tax billing and collection services.

OTHER INFORMATION

Audit

The City Charter requires an annual audit of the books of accounts, financial records and transactions of all administrative departments of the City by independent certified public accountants selected and engaged by the City Council. The Independent Auditor's Report is included in the financial section of this report.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Bedford for its Comprehensive Annual Financial Report (CAFR) for fiscal year ended September 30, 2013. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement a government unit must publish an easily readable and efficiently organized CAFR with contents that conform to program standards. In addition, an award winning CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This is the 18th consecutive year the City of Bedford has received the Certificate of Achievement. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA for their consideration.

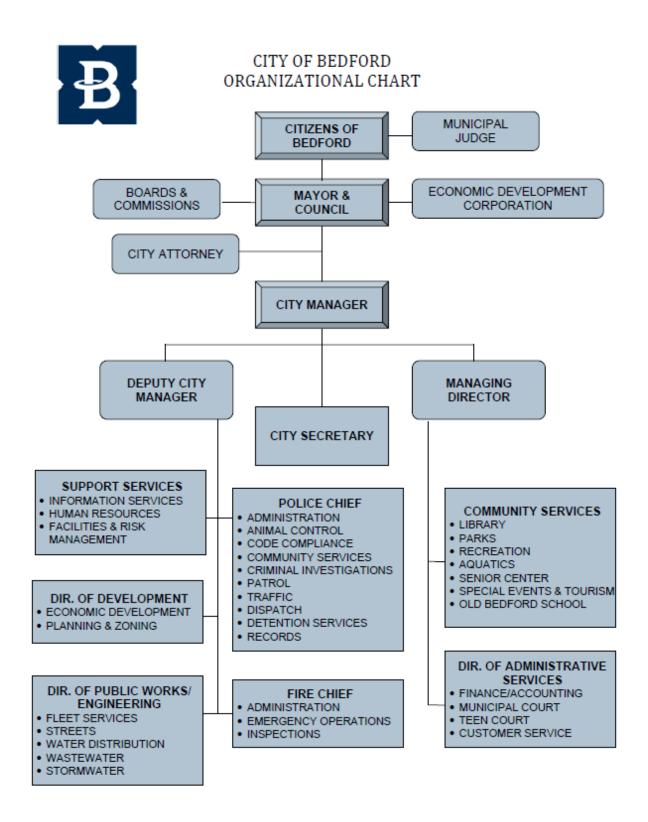

ACKNOWLEDGMENTS

The preparation of this report could not be accomplished without the dedicated services of the entire staff of the Administrative Services Department. Many individuals devoted extra hours and exhibited dedicated effort in ensuring the accuracy and timeliness of this report. Appreciation is expressed to the City employees throughout the organization, especially those responsible for the maintenance of records upon which this report is based. Special acknowledgment is extended to Paula McPartlin and Crystal Segovia, whose hard work and dedication was instrumental in the preparation of this report. Acknowledgment is also given to representatives of BKD, LLP for their assistance in producing the final product. This was the third year in which BKD conducted its audit of the City's financials and a considerable amount of time and effort has been given in order to ensure accuracy. Our appreciation is extended to the Mayor, the members of the City Council and the City Manager for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Clifford Blackwell, C.G.F.O.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Bedford Texas

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
September 30, 2013

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditor's Report

The Mayor and City Council City of Bedford, Texas Bedford, Texas

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Bedford, Texas (City), as of and for the year ended September 30, 2014, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Mayor and City Council City of Bedford, Texas Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2014, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Year Comparative Information

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended September 30, 2013, from which the summarized information was derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary and pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Mayor and City Council City of Bedford, Texas Page 3

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining fund statements and schedules listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements as a whole. The accompanying introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 9, 2015, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

BKD, LLP

Dallas, Texas February 9, 2015

Management's Discussion and Analysis (Unaudited) September 30, 2014

The discussion and analysis of the City of Bedford's (City) financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2014. Please read it in conjunction with the accompanying letter of transmittal and the City's basic financial statements.

Financial Highlights

The assets and deferred outflows of the City exceeded its liabilities at the close of the most recent fiscal year by \$60,340,993 (net position). Of this amount, \$10,919,249 (unrestricted net position) may be used to meet ongoing obligations to citizens and creditors.

The City's net position increased \$5,596,997 or 10.22%. The increase is primarily due to an increase in revenues from charges for services including public safety and water and sewer services, as well as other taxes. Charges for services under public safety were \$3,374,638 and \$4,083,939 for fiscal years 2013 and 2014, respectively; resulting in an increase of \$709,301 or 21%. Additionally, charges for water and sewer services were \$17,908,621 and \$18,607,795 for fiscal years 2013 and 2014, respectively; resulting in an increase of \$699,174 or 4%. Other non-property taxes were \$13,869,690 and \$14,598,416 for fiscal years 2013 and 2014, respectively, resulting in an increase of \$728,726 or 5.25%. Moreover, the City received a capital contribution from North Tarrant Expressway (NTE) of \$6,263,044 of utility distribution updates under the highway 183 expansion project.

As of September 30, 2014, the City's governmental funds reported combined ending fund balances of \$21,249,729, an increase of \$5,828,034 in comparison with the prior fiscal year. Of this amount, \$6,172,841, or 29% of the total amount is unassigned.

As of September 30, 2014, the fund balance for the General Fund increased by \$1,038,134. Total General Fund balance was \$7,375,923. The increase in the General Fund balance was the result of \$1,167,290 or 4.1% increase in total revenues, primarily in the area of fines and forfeitures which increased \$657,266 or 53.0% due to an increase in court fines. In addition, total taxes increased by \$469,467 or 2.4% due to increases in sales and franchise taxes. The increase in total revenues was partially offset by a 2.5% increase in operating expenditures. Therefore, the outliers that mostly contributed to the increase in fund balance are taxes, fines and forfeitures.

The City's total debt of \$55,845,817 decreased by \$708,055 during the 2013/2014 fiscal year due to the following reasons: the City repaid \$6,208,055 in principal balances that were partially offset by the newly issued \$3,200,000 in general obligation bonds and \$2,300,000 in public property finance contractual obligations.

Using This Annual Report

This discussion and analysis serves as an introduction to the City's basic financial statements. This annual report consists of a series of financial statements.

The statement of net position and statement of activities provide information about the activities of the City as a whole and presents a long-term view of the City's finances.

The next section is the fund financial statements. For governmental activities, these statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements report the City's operations in more detail than the government-wide statements by providing information about the City's most financially significant funds.

This report also includes other supplementary information in addition to the basic financial statements.

Reporting the City as a Whole

One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include assets, deferred outflows and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. You can think of the City's net position (the difference between assets and deferred outflows, what the citizens own and liabilities and deferred inflows of resources, what the citizens owe) as one way to measure the City's financial health or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the City's property tax base, and the condition of the City's capital assets (roads, buildings, water and sewer lines) to assess the overall health of the City.

In the statement of net position and the statement of activities, the City is divided into two kinds of activities:

- Governmental Activities Most of the City's basic services are reported here, including the police, fire, street maintenance, parks and recreation and general administration. Taxes (property, sales, franchise, mixed beverage), licenses/permits, charges for services and fines/forfeitures finance most of these activities.
- Business-type Activities The City charges a fee to customers to help it cover all or most of
 the cost of certain services it provides. The City's water and sewer system, and stormwater
 facilities are reported here.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by state law. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain revenues.

The City's two kinds of funds, governmental and proprietary, use different accounting approaches.

Governmental Funds

Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (of differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliations.

Proprietary Funds

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Generally speaking, a city maintains two different types of proprietary funds to record charges for the full cost of the services it provides whether to outside customers or to other units of the city. These services are reported in either Enterprise Funds or Internal Service Funds.

- **Enterprise Funds** Are used to report the same function presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water and sewer and stormwater operations.
- Internal Service Funds Are an accounting device used to accumulate costs internally among various functions of the City. The City currently has no operations that qualify as an Internal Service Fund.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources would not be available to support the City's own programs. The City currently has no fiduciary funds.

Major Governmental Funds

As noted elsewhere in this report, the City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The focus of governmental funds is to provide information on inflows, outflows and balances of spendable resources. Information such as unassigned fund balance serves as a useful measure of the City's ability to finance unforeseen upcoming obligations. As a measure of the General Fund's liquidity, year ending unassigned fund balance of \$6,172,841 represents 20.75% (approximately 76 days) of next year's budgeted expenditures.

The Debt Service Fund has a total fund balance of \$977,409, all of which is reserved for the payment of debt. There was, however, a decrease in fund balance of \$83,184 during the current year, due to tax assessment income levels not reaching total debt service expended from the fund. The fund incurred a new debt issuance, as well as a refunding, in which the payment schedule was finalized post budget preparation. As a result, the actual payment exceeded budgetary expectations for the year.

The Street Bond Capital Project Fund has a total fund balance of \$1,839,601, all of which is reserved for street projects. There was an increase in fund balance of \$6,630 during the current year, due to interest income.

The Economic Development 4B Fund has a total fund balance of \$2,697,890, all of which is reserved for street infrastructure improvements and maintenance. There was an increase in fund balance of \$794,155 during the current year.

The City as a Whole

The City's combined net position changed from a year ago, increasing from \$54,743,996 to \$60,340,993. Looking at the net position and net expenses of governmental and business-type activities separately, different stories emerge. Our analysis below focuses on the net position and changes in net position of the City's governmental and business-type activities.

Net position of the City's governmental activities decreased from \$22,728,556, last fiscal year, to \$22,113,131 as of September 30, 2014, or 2.7%. In the business-type activities, the net position increased from \$32,015,440 to \$38,227,862, or 19.4%. The unrestricted net position of the City's governmental activities (the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements) increased to \$5,653,694. The primary reason for the increase was due to a decrease in net investment in capital assets related to depreciation expense of \$7,706,770 and increase in outstanding bonds totaling of \$5,500,000 through 2014 issuance of general and public property finance contractual obligations. The unrestricted net position of the business-type activities decreased from \$11,845,248 to \$5,256,555 as of September 30, 2014, or -55.6%. The primary reason for the decrease was annual debt service, transfers out and capital outlay for utility distribution infrastructure of Highway 183 expansion. The water and sewer fund decreased \$6,149,797 or 56.88% and the stormwater fund decreased \$438,896 or 42.47% in their unrestricted net positions.

Restricted net position of the City, those restricted mainly for economic development, capital projects and debt service increased from \$4,562,897 to \$6,240,223 or 36.76%.

The largest portion of the City's net position (71.58%) reflects its investment in capital assets, less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Resources needed to repay debt associated with acquisition of these assets must be provided from other sources, since the capital assets themselves cannot be used for this purpose.

- **Governmental Activities** Net position for Governmental Activities decreased by \$615,425. This was primarily caused by an increase in general government and administration expenses of \$1,100,529 or 23.5%.
- **Business-type Activities** Revenues of the City's business-type activities totaled \$26,206,192 for the fiscal year ended September 30, 2014. Expenses for these activities were \$17,487,167, resulting in a net gain of \$8,719,025 from operations before transfers. The net position, after interfund transfers, of the business-type activities increased by \$6,212,422. This is primarily due to capital contributions of \$6,263,044.

General Fund Budgetary Highlights

Actual revenues exceeded budgetary expectations by \$376,691 and actual expenditures were \$535,391 less than budgetary projections. Total operating revenues were \$26,534,792, while total operating expenditures were \$28,340,253. This resulted in a deficiency of \$1,805,121, which was \$912,082 better than budgetary expectations. This is primarily related to increased tax revenues, along with other major revenue categories, exceeding budgetary expectations. Coupled with other financing sources that totaled \$2,843,255, the General Fund completed the fiscal year with a positive variance that resulted in a \$1,038,134 net increase in fund balance.

The City's Funds

The following tables present a summary of General, Special Revenue, Capital Projects and Debt Service Fund revenues and expenditures for the fiscal year ended September 30, 2014, and the amount and percentage of increases and decreases in relation to the prior year:

Capital Asset and Debt Administration

Capital Assets

As of September 30, 2014, the City had \$266,247,115 invested in capital assets including police and fire equipment, buildings, park facilities, roads, water, sewer, and stormwater facilities. This represents net increase of \$12,900,381 or 5.09% over last year. Capital assets net of depreciation increased by approximately \$3,631,686 or 4.18%. The City's capital plans for fiscal year 2015/2016 call for expenditures of approximately \$3.3 million for capital projects, primarily in the following categories: street improvements, drainage, and water and sewer distribution system. The estimated capital expenditure for street improvements is approximately \$585,000 to improve one of the City's major thoroughfares. This type of project is a mill and overlay project for Bedford Road. The drainage projects are estimated at \$1,010,000 for channel and culvert improvements and erosion control throughout areas of the City in need of major enhancements to improve downstream water flow.

Finally, the estimated capital improvement for water and sewer projects is \$1,735,000. The most notable of these projects is water main replacement for the Regents Park Area totaling \$670,000 out of \$900,000 worth of water projects. On the sewer side, the most notable project includes the implementation of trenchless technology in sewer main replacements along Rollingwood & Lincolnshire totaling \$620,000 out of \$835,000 worth of sewer projects. Additional information on capital asset activity can be found in *Note 7* of this report

Debt

At year-end, the City had \$55,845,817 in General Obligation Bonds, Combination Tax and Revenue Certificates of Obligation, and capital lease obligations compared to \$56,553,872 at the end of the prior fiscal year, a decrease of 1.25%. The City issued debt in fiscal year 2013/2014, partially offset by the retirement of such debt as well, thus rendering a slight decrease in outstanding debt when compared to fiscal year ending 2012/2013.

Standard and Poor's (S&P) affirmed the City of Bedford's "AA" rating in conjunction with the City's issuance of the Series 2014 General Obligation bonds as well as the Series 2014 Public Property Finance Contractual Obligations. The City's rating outlook from S&P's is "Stable." S&P's rating reflects their view of the City's strong wealth and income levels, its historically strong financial performance and reserves, and its moderate debt burden. In their opinion, the City budgetary flexibility remains very strong with reserves above 20% of expenditures. The General Obligation bonds are secured by an ad valorem tax levied against all taxable property within the City, within the limits prescribed by law. Additional information regarding the City's long-term debt can be found in *Note* 8 of this report.

Economic Factors and Next Year's Budgets and Rates

Continued growth in sales tax collections, coupled with moderate increases in taxable property values enabled the City Council to maintain a stable tax rate of \$0.4948303 per \$100 assessed valuation. The tax rate provides the City with the ability to continue to provide the high level quality of services the citizens of Bedford deserve and have come to expect, while providing for merit based increases to employee compensation and benefits.

In budget year 2014, the City Council also was able to fund a compensation plan that combined salary increases based on market levels and merit increases where market increases are not warranted. The total plan, valued at \$485,017, was added to the budget. In addition, the City Council authorized several personnel changes that included adding an intern the City Manager's office, reclassifying positions in Code Enforcement, Public Works, and the City Manager's Office, as well as increasing the part time/seasonal staffing in Leisure Services to meet increasing demands for services.

Moreover, in an effort to keep up with increased wholesale water and wastewater costs, the City Council authorized pass-through rate increases for both areas. They also approved funding for increased sidewalk maintenance, water tower tank bowl rehabilitation, additional utility expenses related to water well pumping, as well as meter replacements. In addition, the City Council will continue its goal of increasing the utility fund's working capital in an effort to replace the City's aging water and wastewater infrastructure.

Contacting The City's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Division at 2000 Forest Ridge Drive, Bedford, Texas 76021.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position September 30, 2014

Fund balances of governmental funds		\$ 21,249,729
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets (net of accumulated depreciation) used in governmental activities are not current financial resources and therefore are not reported as assets in the governmental funds. Capital assets are reported in the government-wide financial statements, net of accumulated depreciation.		42,764,536
Interest payable on long-term debt does not require current financial resources, therefore interest payable is not reported as a liability in the governmental funds balance sheet.		(78,753)
Revenues earned but not available within 60 days of the year-end are not recognized as revenue on the fund financial statements.		683,526
Receivables not measureable and available within 60 days of year-end, and therefore are entirely deferred in the fund financial statements.		323,893
Bond premiums and deferred charges on refunding are recognized as an other financing sources (uses) in the fund statements. In the government-wide statements, premiums and deferred charges on refunding are amortized over the life of the bonds. Unamortized balances as of fiscal year end equal premiums of \$1,099,138 and deferred charges on refunding of \$108,822.		(990,316)
Long-term liabilities, including bonds payable are not due and payable in the current period and therefore are not reported in the fund financial statements. Long-term liabilities at year-end consist of:		
General and contractual obligation bonds Compensated absences OPEB liability Capital leases	38,115,000 3,119,377 209,290 395,817	(41,839,484)
Total net position of governmental activities		\$ 22,113,131

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended September 30, 2014

Net change in fund balances – total governmental funds	\$ 5,828,034
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of capital assets recorded in the current period.	2,114,252
current period.	2,114,232
Depreciation expense on capital assets is reported in the statement of activities but does not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in the governmental funds.	(7,706,770)
Current year principal payments of long-term liabilities are shown as expenditures in the fund financial statements, but shown as reductions in long-term liabilities in the government-wide financial statements as follows:	
General and certificates of obligation bonds	5,268,055
The issuance of long-term debt, such as bonds and capital leases, are shown as "Other Sources" and "Other Uses" in the governmental funds, but are shown on the statement of net assets with related costs amortized over the life of the bonds. Differences consist of the following:	
Issuance of debt (5,500,000)	
Premium on debt issuance (61,948)	
Amortization of refunding loss (9,155) Amortization of bond premium 153,315	(5,417,788)
Current year change in long-term liability for compensated absences and OPEB liability do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.	(602,215)
Current year changes in accrued interest payable do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.	126,436
Certain revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds. This is the net change in these revenues for the year.	(225,429)
Change in net position of governmental activities	\$ (615,425)

Notes to Financial Statements

Notes to Financial Statements September 30, 2014

Note 1: Summary of Significant Accounting Policies

The City of Bedford, Texas (City) Home Rule Charter was adopted September 24, 1966. The City operates under a Council/Manager form of government and provides the following services by its charter: public safety, public works, health, culture, recreation, community development, water and sewer utilities.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets, deferred outflows, and liabilities and deferred inflows, the disclosure of contingent assets and liabilities, and the reported revenues, expenditures and expenses. Actual results could vary from the estimates that are used. Significant policies of the City are described below.

Financial Reporting Entity

Generally accepted accounting principles require that financial statements present the City (the primary government) and its component units. Component units are organizations for which the City is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The accompanying general purpose financial statements comply with the provisions of the GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, in that the financial statements include all organizations, activities, functions and component units for which the City (the primary government) is financially accountable. In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. Based on these criteria, the following blended component unit is included in the accompanying financial statements. Blended component units, although legally separate entities are, in substance, part of the City's operations.

The City Street Improvement Economic Development Corporation (EDC) is governed by a seven-member board appointed by the City Council. Although it is legally separate from the City, the EDC is reported as if it were part of the primary government because its sole purpose is to operate, maintain, and finance the costs of the City's street improvements using taxes collected under Section 4B of the Development Corporation Act of 1979. Separate financial statements are not available.

Notes to Financial Statements September 30, 2014

Basis of Presentation

The government-wide financial statements (*i.e.*, the statement of net position and the statement of activities) report information on all of the activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for support.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the City and for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The primary effect of internal activity has been eliminated from the government-wide financial statements. However, interfund service provided and used is not eliminated in the process of consolidation on the government-wide statement of activities.

Fund financial statements report detailed information about the City. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The City reports the following major governmental funds:

- **General Fund** is the City's primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- **Debt Service Fund** is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.
- **Street Bond Capital Projects Fund** is used to account for construction of improvements to streets, street related drainage and sidewalks.
- **Economic Development 4B Fund** is used to account for revenues and expenses associated with the operation, maintenance and financing of the costs of the City's street improvements. Primary revenue source is sales taxes, and a small amount of interest.
- **Series 2014** to account for construction projects authorized for the General and Contractual Obligation Series 2014 bond issues.

Notes to Financial Statements September 30, 2014

All proprietary funds account for operations that are primarily financed by user charges.

The City reports the following proprietary funds:

- Water and Sewer Fund accounts for providing water and sewer services to residential and commercial users in the City.
- **Stormwater Utility Fund** accounts for the storm drainage runoff service provided to the residential and commercial users of the City.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Notes to Financial Statements September 30, 2014

Property taxes, sales taxes, franchise taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Licenses and permits, charges for services (except for sanitation services), fines and forfeits and rents and concessions are recorded as revenues when received in cash because they are generally not measurable until actually received. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the City.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the City considers cash and cash equivalents to be all unrestricted cash and certificates of deposit with an original maturity date of three months or less.

Investments

Investments maturing within one year of date of purchase are reported at cost or amortized cost; all other investments are reported at fair value except for positions in investment pools. In accordance with state law, these pools operate in conformity with all of the requirements of the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Accordingly, the pools qualify as a 2a7-like pool and are reported at the net asset value per share (which approximates fair value) even though they are calculated using the amortized cost method. The pools are subject to regulatory oversight by the State Comptroller of Public Accounts although it is not registered with the SEC.

Accounts Receivable

Accounts receivable consist primarily of amounts due from citizens for various services provided by the City as well as property taxes and sales taxes receivable. Management evaluates the adequacy of the allowance for doubtful accounts based on a review of individual accounts. The primary factors considered in determining the amount of the allowance are collection history, the aging of the accounts and other specific information known to management that may affect collectibility.

Notes to Financial Statements September 30, 2014

Inventories

Inventories in the general and proprietary fund types are carried at cost (first-in, first-out method). The City uses the consumption method for determining cost; inventories are recognized as expenditures when consumed.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure such as roads, bridges, drainage systems and lighting systems, are reported at historical cost. Contributed assets are recorded at their estimated fair value as of the date received. Depreciation is recorded on each class of depreciable property utilizing the straight-line method over the estimated useful lives of the assets. Estimated useful lives of major categories of property are:

Buildings	20-40 years
Infrastructure	20 - 30 years
Water and sewer system	50 years
Improvements	10-20 years
Machinery and equipment	3-10 years

Interest expense is capitalized on contracts with durations over one-year in the proprietary funds. The minimum capitalization threshold is any item with a total cost greater than \$5,000 and a useful life greater than one-year.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service from the City.

Notes to Financial Statements September 30, 2014

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay only if the compensated absences have matured with unused reimbursable leave outstanding following an employee's resignation or retirement. Vested or accumulated vacation leave within proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

Interfund Transactions

During the course of normal operations, the City has transactions between funds, including expenditures and transfers of resources to provide services, construct assets and service debt. There is no interest charged between funds for these advances.

Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The net position of the Tourism Development Fund and the Economic Development 4B Fund are restricted by enabling legislation as indicated on the statement of net position.

The City's policy is to use restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

• Nonspendable – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Balances include items not expected to be converted to cash including inventories and prepaid amounts.

Notes to Financial Statements September 30, 2014

- **Restricted** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by ordinance of the City Council, the City's highest level of decision making authority. These amounts cannot be used for any other purpose unless the Council removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- **Assigned** This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council.
- Unassigned This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds.

Prior Year Comparative Information

The basic financial statements include certain prior year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the City's financial statements as of and for the year ended September 30, 2013, from which the summarized information was derived.

Notes to Financial Statements September 30, 2014

New Pronouncements

During the year ending September 30, 2015, the City will implement GASB Statements No. 68, *Accounting and Financial Reporting for Pensions* – an Amendment of GASB Statement No. 27. This statement establishes standards for measuring and recognizing liabilities, deferred inflows of resources, and expense/expenditures. Management has not currently determined what impact implementation will have on net position.

Reclassifications

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 financial statement presentation. These reclassifications had no effect on change in net position/fund balance.

Note 2: Deposits and Investments

The deposit and investment policies of the City are governed by State Statutes and the adopted City Investment Policy. City policies governing bank deposits require depositories to be FDIC-insured institutions, and depositories must fully collateralize all deposits in excess of FDIC insurance limits.

Statutes authorize the City to invest in obligations of the U.S. Treasury and U.S. agency securities, repurchase agreements and municipal pools.

The City utilizes a pooled investment concept for all its funds to maximize its investment program. Investment income from this internal pooling is allocated to the respective funds based upon the sources of funds invested.

During the year ended September 30, 2014, the City invested in TexCLASS, TexSTAR, Texas DAILY and Lone Star, which are investment pools authorized by the Texas Legislature. The Texas Treasury Safekeeping Trust Company is the trustee and is a limited purpose trust company authorized pursuant to Texas Government Code. The pools operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The pools use amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in the pools is the same as the value of the pools shares.

Notes to Financial Statements September 30, 2014

Investments at year-end are shown below:

Investment Type	Fair Value	Weighted- Average Maturity
TexCLASS	\$ 202,131	1 day
TexSTAR	2,333,647	1 day
Texas DAILY	738,249	1 day
Lone Star investment public pool	83,777	1 day
Certificates of deposit	7,521,947	351 days
Total	\$ 10,879,751	

The City's investments at September 30, 2014, are held by the following investment pools:

	Standard & Poor's Credit
Investment Type	Rating
TexCLASS	AAAm
TexSTAR	AAAm
Texas DAILY Lone Star investment public pool	AAAm AAAm

- Interest Rate Risk In accordance with its investment policy, the City manages its exposure to declines in fair market values by investing operating funds primarily in short-term securities, money market mutual funds or similar investment pools. Furthermore, unless matched to a specific cash flow, the City will not directly invest in securities maturing more than three years from the date of purchase.
- Credit Risk It is the City's policy to follow statutes, which authorize the City to invest in obligations of the U. S. Treasury agencies and instrumentalities, obligations of the state of Texas and related agencies, obligations of states, agencies, counties, cities and other political subdivisions of any state rated "A" or above by Standard & Poor's Corporation or Moody's, repurchase agreements and designated investment pools. The City's assets in investment pools meet this requirement as noted above.
- Custodial Credit Risk Investments In accordance with its investment policy, the City minimizes custodial credit risk by limiting investments to the safest types of investment vehicles, prequalifying the financial institutions, brokers/dealers, intermediaries and advisors with which the City will do business and diversifying the investment portfolio so that potential losses on individual investments will be minimized. Currently, all investments are registered in the City's name.

Notes to Financial Statements September 30, 2014

- Custodial Credit Risk Deposits The City's deposits do not have any exposure to credit risk because all deposits in financial institutions are fully collateralized by U.S. government obligations or obligations of the state of Texas and its agencies that have a value of not less than the principal amount of the deposits. The collateral is held by a third-party custodial bank as the City's agent.
- Concentration of Credit Risk The City limits investments to avoid concentration in securities from a specific issuer or business sector (where appropriate). As noted above, the City's investments are distributed into a variety of allowable investment vehicles. Management does not believe there is a significant risk of loss due to the credit rating and nature of the investments.

Summary of Deposit and Investment Balances

Following is a reconciliation of the City's deposit and investment balances as of September 30, 2014:

		otals
Investments Deposits and cash on hand		10,879,751 17,476,679
Deposits and cash on hand		28,356,430

Other		189,212				345,792				80,022						615,026
Gross receivables		3,551,122		137,504		345,998		596,129		155,747		3,497,088		206,931		8,490,519
Less allowance for uncollectibles		(38,269)		(23,504)		-		-		<u> </u>		(279,661)		<u>-</u>		(341,434)
Net total receivables	\$	3,512,853	\$	114,000	\$	345,998	\$	596,129	\$	155,747	\$	3,217,427	\$	206,931	\$	8,149,085

Governmental funds report deferred outflows in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period.

At the end of the current fiscal year, the various components of deferred outflows reported in the governmental funds were as follows:

	Un	Unavailable		
Delinquent property taxes receivable (General Fund)	\$	172,515		
Delinquent property taxes receivable (Debt Service Fund)	7	109,457		
Delinquent ambulance receivable (General Fund)		265,734		
Street and drainage assessments receivable (Street Bond)		345,978		
Total deferred outflows for governmental funds	\$	893,684		

Note 4: Property Tax

Property taxes attach as an enforceable lien on property as of January 1. The City's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real property and personal business property located in the City. The assessed value upon which the fiscal 2013 levy was based was \$3,121,183,647. The appraisal function is performed by the Tarrant County Appraisal District.

Notes to Financial Statements September 30, 2014

General property taxes are limited by the Texas Constitution to \$2.50 per \$100 of assessed valuation and by Home Rule Charter to \$1.50 per \$100 of assessed valuation for general governmental services and payment of principal and interest on long-term debt. The combined tax rate to finance general governmental service and debt service for the year ended September 30, 2014, was \$.4948303 per \$100 of assessed valuation.

Taxes are due by January 31 following the levy date. Current tax collection for the year ended September 30, 2014, was 100% of the tax levy.

Uncollected property taxes levied for the current fiscal year are recognized as receivables, and are deemed collectible in full.

Note 5: Interfund Transfers

Interfund transfers are payments between funds that are designed to cover various operating and overhead expenses and to allocate charges for services performed by one fund on behalf of another fund.

Individual fund transfers for the year ended September 30, 2014, were:

				Tra	ansfer In				
	Ger	neral	Debt Service		Nonmajor Governmental		Water and Sewer		Total
Transfers out									
Economic Development 4B	\$	-	\$ 1,378,147	\$	-	\$	-	\$	1,378,147
Nonmajor governmental		80,000	-		35,000		-		115,000
Water and sewer	2,	177,046	-		36,717		-		2,213,763
Stormwater utility		292,840	 -		-		123,497		416,337
Total transfers out	\$ 2,	549,886	\$ 1,378,147	\$	71,717	\$	123,497	\$	4,123,247

Notes to Financial Statements September 30, 2014

Note 6: Interfund Assets/Liabilities

Interfund balances reflect payments made by one fund on behalf of another fund for which cash settlement has not been made as of the end of the accounting period. Amounts due to and from other funds will be settled within the next accounting period. Management has no current intention of repaying the advance to the Stormwater Utility Fund in the immediate future.

Individual interfund receivable and payable balances as well as advances at September 30, 2014, were:

	Due From								
	Nonmajor Governmental	Water Sewer	Stormwater Utility	Total					
Due To General Fund	63,470	168,057	28,646	260,173					
Total transfers out	\$ 63,470	\$ 168,057	\$ 28,646	\$ 260,173					

	 vances to her Funds	 Advances from Other Funds			
Advances General Fund Stormwater Utility Fund	\$ 300,000	\$ 300,000			
	\$ 300,000	\$ 300,000			

The advances between the General Fund and Stormwater Utility Fund are the result of the General Fund lending funds to cover start-up operating costs to the Stormwater Utility Fund.

Notes to Financial Statements September 30, 2014

Note 7: Capital Assets

The following tables summarize changes in capital assets during the year ended September 30, 2014:

	Beginning Balance	Additions	Retirements	Reclassifications	Ending Balance

Notes to Financial Statements September 30, 2014

New Bond Issuance

In March 2014, the City issued \$3,200,000 of General Obligation Bonds, Series 2014 (Bonds), as well as \$2,300,000 of Public Property Finance Contractual Obligations, Series 2014 (Contractual Obligations). The Bonds are issued with an interest rate ranging from 2.00% to 4.00% through maturity in February 2034; with proceeds from the sale designated for the purpose of permanent public improvements and public purposes including park improvements at the Boys Ranch Park. The Contractual Obligations are issued with an interest rate ranging from 1.00% to 2.50% through maturity in February 2024, with proceeds from the sale designated for the purpose of capital additions and improvements in general government and public safety classes. Bond and Contractual Obligation proceeds are kept in the Series 2014 Capital Projects Fund.

Note 9: Retirement Plan

Plan Description

The City provides pension benefits for all of its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the statewide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by TMRS. This report may be obtained by writing to TMRS, P. O. Box 149153, Austin, Texas 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at www.tmrs.com.

Notes to Financial Statements September 30, 2014

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	December 31,				
	2014	2013			
Deposit rate	5.0%	5.0%			
Matching ratio (City to employee)	2 - 1	2 - 1			
Years required for vesting	5	5			
Service retirement eligibility (expressed as age/years of service)	60/5, 0/20	60/5, 0/20			
Updated service credit	0%	0%			
Annuity increase (to retirees)	0% of CPI	0% of CPI			

Contributions

Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year-to-year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as updated service credits and annuity increases.

The City contributes to the TMRS plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect.

Annual Pension Cost

Contributions by the City were \$920,307 or 4.88% of the covered payroll of \$18,853,517 as required by the actuarial valuation.

Notes to Financial Statements September 30, 2014

In June 2011, SB 350 was enacted by the Texas Legislature, resulting in a restructure of the TMRS funds. This legislation provided for the actuarial valuation to be completed, as if restructuring had occurred on December 31, 2010. In addition, the actuarial assumptions were updated for the new fund structure, based on an actuarial experience study that was adopted by the TMRS Board at their May 2011 meeting (the review compared actual to expected experience for the four-year period of January 1, 2006 through December 31, 2009). For a complete description of the combined impact of the legislation and revised actuarial assumptions, including the effects on TMRS city rates and funding ratios, please see the December 31, 2010, TMRS Comprehensive Annual Financial Report (CAFR).

Actuarial valuations are based on long-term assumptions, and actual results in a specific year can, and almost certainly will, differ as actual experience deviates from the assumptions. The following table provides a detailed breakdown of changes in the retirement portion of the City of Bedford's contribution rate. This analysis reconciles the change in the retirement portion the City's contribution from plan year 2013 to 2014, but will not reflect any change in the cost of the supplemental death benefit. The City of Bedford does not participate in that benefit.

Notes to Financial Statements September 30, 2014

Annual City pension cost and related information for the last three years is as follows:

	December 31,						
		2013		2012		2011

UAAL as a percentage of covered payroll		52%		59%		59%	

Notes to Financial Statements September 30, 2014

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits.

The City's net pension obligation (NPO) for TMRS at December 31, 2014, 2013 and 2012, is calculated as follows:

	December 31,						
		2013		2012	2011		
Actuarial Valuation Date							
NPO, beginning of year	\$	-	\$	-	\$	-	
Annual required contribution (ARC)		920,307		844,310		1,262,583	
Contributions made		920,307		844,310		1,262,583	
				_			
NPO, end of year	\$	_	\$	_	\$	_	

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Note 10: Post-employment Health Care Plan

Plan Description and Funding Policy

Starting January 1, 2010, the City began requiring participants who are active employees with less than 20 years of service or 60 years or more of age with less than 5 years of service to contribute an age-based full-cost premium if they choose to remain on the City's health care plan upon retirement. In return, the City will make scheduled annual contributions into a retiree health savings plan in the name of each eligible employee who has 10 years of service or more. Employees are 50% vested at 20 years of service and 100% vested at 30 years of service.

Under provisions of GASB Statement No. 45, employees who will be required to contribute the full age-based cost of coverage for the City's health plan do not receive another post-employment benefit.

Notes to Financial Statements September 30, 2014

Retiring employees will pay either age-based or blended premiums depending on their status as "grandfathered" or "non-grandfathered." Blended premiums blend the cost of providing health coverage to both active employees and retirees, and will be based on the total employer/employee premium for the health plan as a whole, and will be determined annually during the budget process.

Grandfathered Employees

As of January 1, 2010, employees that have 20 years of continuous service with the City or employees having 5 years of continuous service and have reached the age of 60 will be eligible to purchase City health benefits at blended rates upon the date of their retirement if they are less than age 65. Employees who meet the requirements to stay on the plan will continue to pay both employee and employer required contributions for the retiree health plan chosen for themselves and eligible dependents. Employer and employee required contributions are determined annually by plan as part of the City's annual budget. If the spouse or eligible dependents are on the plan at the time of the employee's retirement, they can remain on the plan, until which time they are no longer eligible.

Non-Grandfathered Employees

Employees who do not meet the eligibility requirements to stay on the plan will pay age-based premiums for the retiree health plan chosen for themselves and eligible dependents. These employees will participate in the City's retiree health savings plan.

Policy Information

Retiree Health Plan Benefit Eligibility

To be eligible for retiree health benefits, employees must meet the following criteria:

- Any employee who is covered under the City's health plan at the effective date of (the employee's) retirement, who is less than age 65, and who meets the "retiree" definition (as described below) may elect to continue health insurance coverage under the plan.
- Employees who are eligible and elect to stay on the plan will be required to begin paying monthly premiums immediately upon retirement.
- Employees eligible for retiree health insurance may also continue coverage for any dependents following the employee's retirement, provided the dependents were covered under the employee's health insurance as of the effective date of the employee's retirement and the appropriate enrollment forms are completed within 30 days of retirement. Anyone electing this coverage must meet all of the eligibility rules of the plan.

Notes to Financial Statements September 30, 2014

NOTE: When a covered retiree's spouse is employed at the time the City of Bedford employee retires, an exception to this policy may be made. The spouse may elect coverage under the City's health plan if the spouse's employment ends or the spouse's employer discontinues coverage.

• Dependents who are covered under the retiree's health insurance at the time of the retiree's death may continue coverage as follows: (a) the spouse may continue coverage following the death of the retiree until such time as the spouse remarries, dies or reaches age 65 (b) any other eligible dependent(s), as defined by the City's self-funded plan, may continue to be covered under retiree health insurance as long as all eligibility requirements of the City's plan are met.

Retiree Health Plan Benefit Coverage

Retirees are able to maintain retiree coverage through the City until they reach age 65 (see section below). Retirees cannot drop the City's plan and re-elect retiree benefits at a later date unless they become re-employed by the City. If this is the case, they must re-enroll into the City's retiree insurance program within 30 days of the termination from the City's re-employment.

- Retirees are able to choose from and elect the same plans offered to active employees during open enrollment each year until they reach age 65.
- Retirees who decide to elect the City's retiree health benefits will pay either age based on blended premiums depending on their status as "grandfathered" or "nongrandfathered."
- Blended premiums blend the cost of providing health coverage to both active
 employees and retirees, will be based on the total employer/employee premium for
 the health plan as a whole, and will be determined annually during the budget
 process.

Retirees Age 65 or Older

Effective January 1, 2010, retirees who are Medicare eligible or age 65 or older will have access to a more cost effective and comparable Medicare Supplement or Medicare Advantage Plan and will no longer have access to the City's health plan. Retirees will continue to have access to the City's dental plan.

 Retirees who choose to obtain coverage elsewhere may later elect one of the City's Medicare Supplement or Medicare Advantage plans when they become eligible for Medicare.

Notes to Financial Statements September 30, 2014

- Retirees' dependents who are under 65 years of age will be able to maintain coverage through the City's health plan. Once a dependent reaches age 65, the dependent will no longer be able to access the City's health plan, but will be able to select either the Medicare Supplement or Medicare Advantage Plan which is less expensive than the current retiree premiums and is comparable to or offers a richer benefit than the City's health plan.
- If the employee is 65 years of age or older, but is not Medicare eligible, the City will evaluate the cost of Medicare Part A premiums each year and determine whether the City will reimburse the employee for the purchase of Medicare Part A (on behalf of the retiree or whether to allow the retiree to pay the premium to stay on the City's health plan). Retirees in this situation will be notified of this determination at the end of each year for the following plan year.

Applicability

This policy applies to all regular full-time employees.

Definitions

Retiree – is defined as an employee who has effected retirement with the City and is eligible to retire according to the City's pension plan guidelines.

Policy Authority

The City Council authorizes this policy. The City's management team and Human Resources are responsible for interpreting and enforcing this policy.

Implementation Procedures

Employees eligible for retiree health insurance will be given written notification from Human Resources explaining their eligibility to elect retiree health insurance, the applicable premium rates for the type of coverage(s) they are eligible to continue, and the procedures the employee must follow in order to elect retiree health insurance. They will also be given an election form on which to make their health insurance elections.

Employees eligible for retiree health insurance must complete the retiree health insurance election form and remit the appropriate premium payment as outlined in the retiree medical information packet within 30 days following the effective date of the employee's retirement; otherwise, the retiree will automatically forfeit his/her right to continue health insurance under this policy, except as provided by federal law.

Notes to Financial Statements September 30, 2014

Retirees who are not age 65 and who are eligible for and elect retiree coverage through the City will receive notification from the City's Human Resources Department of the discontinuation of their retiree coverage along with enrollment information for the Medicare Supplement and Medicare Advantage plans upon turning age 65.

Termination of Retiree Health Plan Coverage

Retiree health insurance will automatically terminate for the retiree and/or covered dependents upon the earliest of the following occurrences:

- The City ceases to provide group health insurance.
- Retiree/retiree's dependent(s) fail to remit the monthly premium payment to the City's Human Resources Department by the last day of each month.
- The retiree returns to active employment status with the City and becomes covered under a City sponsored health plan.
- Dependent(s) of the retiree cease to meet the eligibility requirements of the City's medical plan.

Note 11: Other Post-Employment Benefits

Plan Description

The City provides post-employment medical care (OPEB) for employees through a single-employer defined benefit medical plan. The plan provides medical benefits for eligible retirees, their spouses and dependents through the City's group health insurance plans, which cover both active and retired members. The benefit levels and contribution rates are approved annually by the City management and the City Council as part of the budget process. Since an irrevocable trust has not been established, the plan is not accounted for as a trust fund. The plan does not issue a separate financial report.

Benefits Provided

The City provides post-employment medical and dental care benefits to its retirees. Retirees who elect COBRA cannot later elect retiree coverage. To be eligible for coverage an employee must qualify under all three of the following:

- The retiree must have been covered for medical benefits under the City health plan as an employee immediately prior to termination of employment.
- Apply for pension benefits from TMRS in accordance with their requirements and deadlines, but in no event later than 90 days from termination of employment.
- Enroll for retiree health coverage within 30 days of the date of termination.

Notes to Financial Statements September 30, 2014

Annual Funding Policy

The plan's premium rates are determined annually by City management and approved by the City Council as part of the annual budget. Members receiving PPO medical benefits contribute 50% - 80% per month for retiree-only coverage, 50% - 80% per month for retiree and spouse and 50% - 80% per month for retiree and family.

Annual OPEB Costs

The City's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB No. Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The City's annual OPEB cost for the past three years and the related information is listed below:

	September 30,				
		2014		2013	2012
Annual required contribution	\$	97,796	\$	97,796	\$ 97,796
Interest on prior year net OPEB obligation		14,306		12,881	10,989
Adjustment to annual required contribution		(20,970)		(18,882)	 (16,109)
Annual OPEB cost		91,132		91,795	92,676
Contributions made		(71,468)		(60,130)	(50,649)
Increase in net OPEB obligation		19,664		31,665	42,027

Net obligation, end of year	\$	337,564	\$	317,900	\$ 286,235
Percentage of OPEB costs contributed		21%		19%	18%

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the current year are calculated using a 4.5% discount rate, and the Projected Unit Credit Cost method.

Notes to Financial Statements September 30, 2014

Funded Status and Funding Progress

The funded status of the plan as of actuarial measurement date of December 31, 2013, was as follows:

Actuarial accrued liability Actuarial value of plan assets	\$ 1,138,070 27,970
Unfunded actuarial accrued liability	\$ 1,110,100
Funded ratio	2.46%
Covered payroll	\$ 3,596,883
Unfunded actuarial accrued liability	

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2011, actuarial valuation, the Projected Unit Credit Cost method was used. The actuarial assumptions included a 4.5% investment rate of return (net of administrative expenses) and an annual health care cost trend rate of 9.0% initially, reduced by decrements to an ultimate rate of 4.5% after a number of years. Both rates include a 3.0% inflation assumption. The actuarial value of the plan's assets was set equal to the reported market value of assets. The assets are allocated among the divisions based on liabilities valued at 4.5%. The City's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2011, was 25 years.

Notes to Financial Statements September 30, 2014

Note 12: Commitments and Contingencies

Risk Management

The City is exposed to various risks of loss related to torts; theft, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The City participates in the Texas Municipal League Intergovernmental Risk Pool (Risk Pool) to provide insurance for workers' compensation benefits, liability and property coverage.

At September 30, 2014, the Risk Pool was self-sustaining based on premiums charged, so that total contributions plus compounded earnings on these contributions will be sufficient to satisfy claims and liabilities and other expenses. Premiums are assessed based on the rates set by the Texas State Board of Insurance and may be adjusted, on an annual basis, by the Risk Pool's Board of Trustees for each participating political subdivision's experience. The City is not liable for payments beyond the annual contributions.

The Risk Pool has purchased stop-loss coverage to protect the assets of the pool from catastrophic losses. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years, and there have been no significant reductions in insurance coverage during the current year.

Trinity River Authority of Texas

In 1972, the City entered into a contract with the Trinity River Authority (TRA) for the purchase of water. The contract shall remain in effect until all bonds, including refunding bonds, have been paid.

Under the terms of the contract, the City is obligated to pay its proportional share of operating and maintenance expenses and debt service charges by the TRA based on the ratio of estimated water usage for the ensuing year to the total estimated water usage. Total purchases during fiscal year 2014 were approximately \$7,700,000.

In 1973, the City entered into a 50-year contract with the TRA for the transportation, treatment, and disposal of sanitary sewage actually discharged and to share in the cost of operation and maintenance of the system. Total payments of approximately \$3,832,000 were made in fiscal year 2014. Additionally, \$322,767 was spent with the City of Hurst for the transportation, treatment and disposal of sanitary sewage as well.

Notes to Financial Statements September 30, 2014

Litigation

Various claims and lawsuits are pending against the City. In the opinion of the City's legal counsel and management, the potential loss on all claims after insurance will not be significant to the City's financial statements.

State and Federal Programs

The City has received federal and state grants for specific purposes that are subject to review and audit by grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. In the opinion of management of the City, disallowed costs, if any, should not be material.

Note 13: Subsequent Events

Subsequent events have been evaluated through February 9, 2015, which is the date the financial statements were available to be issued.

^{*} Actuarial valuation performed under original fund structure

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with the perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In October 2013 the TMRS board adopted actuarial changes that were reflected in the December 31, 2013 actuarial valuation. The changes included updating the Annuity Purchase Rate (APR) factors to more accurately reflect continued mortality improvement. In addition, the board changed the funding method to Entry Age Normal (EAN) to minimize contribution rate volatility. For a complete description of the impact of the new actuarial assumptions, including the effects of TMRS city rates and funding ratios, please see the December 31, 2013, TMRS Comprehensive Annual Financial Report (CAFR) as well as the GRS actuarial valuation report on the TMRS website.

Under the reporting parameters, the City's retiree health care plan is 2.46% funded with an estimated actuarial accrued liability exceeding actuarial assets by \$1,110,100 at December 31, 2011. As of the most recent valuation, the ratio of the unfunded actuarial accrued liability to annual covered payroll is 30.9%.

^{**} Actuarial valuation performed under the new fund structure

Schedule of Funding Progress September 30, 2014

The Projected Unit Credit actuarial cost method is used to calculate the GASB ARC for the City's retiree health care plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic recognition of the cost of these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

Notes to Required Supplementary Information September 30, 2014

Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets are adopted for the General, Debt Service, Court Security, Court Technology, Drug Forfeiture, Tourism Development, Park Donation, Bedford Beautification, Economic Development, Red Light Cameras and Public Safety Training funds using the modified accrual basis of accounting.

The City Council follows these procedures in establishing budgetary data reflected in the financial statements:

- Prior to August 15, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to September 30, the budget is legally enacted through passage of an ordinance.
- The City Manager is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the City Council after public hearings.
- All unexpended appropriations lapse at year-end.

Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The City's nonmajor special revenue funds are as follows:

Miscellaneous Donations Fund – This fund is used to account for miscellaneous designated contributions from citizens and other governments.

Court Security Fund – This fund accounts for monies collected under state statute designated to provide security for the Municipal Court facilities.

Court Technology Fund – This fund is used for monies collected under state statute designed to provide increased technology for the Municipal Court facilities.

Library Technology Fund – This fund is used for monies collected under state statute designed to provide increased technology for the Bedford Public Library.

Park Donation Fund – This fund is used for contributions from citizens designated for park improvements.

Drug Forfeiture Fund – This fund accounts for monies received from participation in federal drug enforcement activities.

Bedford Beautification Fund – This fund accounts for revenue and expenditures related to various citywide beautification programs proposed by the City's Beautification Commission.

Public Safety Training Fund – This fund accounts for funds received from state surplus to be used for police training.

Tourism Development Fund – This fund accounts for hotel/motel taxes received.

Local Law Enforcement Block Grant Fund – This fund accounts for revenue and expenditures of funds provided by the state for the purchase of various qualifying law enforcement related equipment.

Regional Fire Grant Fund – This fund is used to account for the revenues and expenditures related to the regional fire grants.

Red Light Cameras Fund – This fund accounts for revenues generated from red light camera fines.

NETCO/Motorola Rebanding – This fund accounts for the City's portion of proceeds received from Motorola for Northeast Tarrant County Trunked Radio Consortium (NETCO). Resolution No. 07-53.

Various Grants – This fund accounts for revenues and expenditures from multiple grants, the majority of which pertain to energy conservation.

Statistical Section

This part of the City of Bedford's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. The tables herein, are unaudited.

Contents

<u>Page</u>
Financial Trends
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time
Revenue Capacity
These schedules contain trend information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes
Debt Capacity
These schedules contain trend information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future
Demographic and Economic Information
The schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time with other governments
Operating Information
The schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs

Sources: Unless otherwise noted, the information in these schedules are derived from Comprehensive Annual Financial Reports for the relevant year.

*Note: Total Taxable Assessed Value and Estimated Actual Taxable Value Columns are based on the July Certified Appraisal roles with the exception of 2011.

2011 Total Taxable Assessed Value and Estimated Actual Taxable Value columns are based on the September Certified Appraisal roles due to the timing of re-evaluation of properties. If the July role would have been used, the taxable value would have been materially understated.

2013	2,961,094,384	74,027,360	54,575,000	19,452,360	1.8%	26.3%
2014	3,121,183,647	78,029,591	55,450,000	22,579,591	1.8%	28.9%

Note:

The City of Bedford does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 provide that a maximum tax rate of \$2.50 per \$100 assessed valuation may be imposed for any one year. Additionally, no debt shall be created by any city, unless at the same time provision be made to assess and collect annually a sufficient sum to pay the interest thereon and creating an interest and sinking fund of at least 2% thereon.

Although Section 6.01 of the Bedford City Charter states a maximum tax rate of \$1.50 per \$100 assessed valuation, this particular table will address the City of Bedford's legal debt limit by using Article XI, Section 5 of the State Constitution because the City does not officially have a legal debt limit for general obligation bonds as well as certificate of obligations.

Notes: Details regarding the City's outstanding debt can be found in the notes to the financial statements.

Operating expenses do not include interest, depreciation or amortization expenses.

^{* 2012 -} Annual Debt Service Variance is due to City refunding of its 1998 and 2002 revenue bonds.
